PROFESSIONAL SUMMARY

BCA student at RKDF University (CGPA 9.29) focused on full-stack development with JavaScript, React, Node.js, Express, and MongoDB. Built and deployed civic reporting, road-safety, and travel-listing applications featuring REST APIs, database persistence, mapping, image uploads, and dashboards. Seeking a software development or full-stack internship.

TECHNICAL SKILLS

Programming: JavaScript, Java, C, C++ , Python **CS Fundamentals:** DSA, OOP
Frontend: React.js, HTML5, CSS3, EJS, Bootstrap **Backend:** Node.js, Express.js, REST APIs, middleware
Databases & Services: MongoDB, Mongoose, SQL, MongoDB Atlas, Cloudinary
Tools & Mapping: Git, GitHub, Vercel, Render, Leaflet, OpenStreetMap, Nominatim, OSRM, Mapbox

PROJECTS

CivicFix-AI | Civic Issue Reporting Platform | React, Node.js, Express, MongoDB

• Built a React/Vite frontend and Express REST API backed by MongoDB/Mongoose for issue creation, data storage, status tracking, and dashboard statistics.

• Integrated Leaflet/OpenStreetMap location selection and Cloudinary evidence uploads; implemented category, severity, urgency, impact-scoring, and department-mapping logic. Live OpenAI inference is not enabled in the current deployment; fallback logic handles recommendations.

Live: civic-fix-ai-peach.vercel.app | GitHub: github.com/pandeypallawi64-del/CivicFix-AI

RoadGuard | Smart Traffic & Road Safety | JavaScript, Node.js, Express, MongoDB

• Built an Express API with MongoDB/Mongoose persistence for hazard reports and a Leaflet/OpenStreetMap interface for map markers, risk categories, and dashboard summaries.

• Implemented rule-based risk scores and safer-route comparison using OSRM, Nominatim, and a 750-meter hazard-proximity check.

Live: road-guard-tau.vercel.app | GitHub: github.com/pandeypallawi64-del/RoadGuard

Wanderlust | Airbnb-Style Travel Listing Platform | Node.js, Express, EJS, MongoDB

• Developed an MVC-style listing application supporting authenticated listing CRUD, reviews, and ratings.

• Integrated Passport authentication and sessions, Joi server-side validation, Cloudinary image uploads, and Mapbox location display.

INTERNSHIP EXPERIENCE

Central Coalfields Limited (CCL) | Full Stack Development Intern

October 2026 – Present | Expected completion: 31 October 2026

• Participating in a full-stack development internship and applying web development skills in project work and trainer review. Add specific responsibilities after confirming the official project scope.

EDUCATION

BCA, Computer Science — RKDF University, Ranchi | 2024–2027 | CGPA: 9.29
Class XII — A.N.U.S.S. Mahila College, Maharajganj, Siwan | BSEB | 2024 | 71.6%
Class X — Jyoti Central High School | CBSE | 2022 | 72.8%

HACKATHON PARTICIPATION & CERTIFICATIONS

Hackathons: ForgeHacks Online 2026 (updated CivicFix-AI submission); Avalon OpenHack 2026 (CivicFix-AI submission); Aayam Tech Hackathon (Mood Tune Songs project).
Certifications: Apna College Alpha — DSA with Java; Apna College Delta — Full Stack Web Development; IBM SkillsBuild — Foundations in Generative AI, Getting Started with Generative AI, Introduction to Large Language Models, Ethical Considerations for Generative AI.
DSA Practice: 98 LeetCode problems solved (confirm current count before sending applications).
